

### **Morden Fireglow Rose**

*Rosa 'Morden Fireglow'*

Height: 3 feet

Spread: 24 inches

Sunlight: 

Hardiness Zone: 3a

Group/Class: Parkland Rose

#### **Description:**

This unique hardy shrub rose features double scarlet orange flowers from early summer through into fall on a vigorous, upright form; the flower color is truly distinctive, makes a fine color accent for the garden; needs full sun and well-drained soil

#### **Ornamental Features**

Morden Fireglow Rose is clothed in stunning double tomato-orange flowers with a scarlet reverse at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves turn yellow in fall.

#### **Landscape Attributes**

Morden Fireglow Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Morden Fireglow Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

#### **Planting & Growing**

Morden Fireglow Rose will grow to be about 3 feet tall at maturity, with a spread of 24 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
